

Short Version Promising Practice

Wapato School District

Event: Multi Media Center

Target: High School

Purpose: To provide a variety of equipment to students to help in there homework, and other class projects.

Activity: students gather in library after school to utilize a variety of equipment such as advance software and video/media production equipment and computers, equipment that one will not have at home and are able to complete needed projects.

Results: Students completed projects in a high tech mode as compared to basic paper and pencil. Students received higher grades and learned more advance technology which focused more on careers and higher education.
